The Ancients

Also known as the First Ones, the Ancients were beings of incalculable power, the first sentient beings to grace the galaxy. Though they herald from the same era as the Shadows and Vorlons, the true Ancients rarely involved themselves with the constant bickering and power play as Order battled Chaos across the millennia. The level of technology attained by the Ancients is incomprehensible to the younger races and its like may not be seen in the galaxy for a million years.

Ancients Initiative: +4

Ancients Special Rules

Priority Level Ancient: Use the following chart when building a fleet to fight the Ancients.

Priority Level	# of ships	Priority Level	# of ships
Ancient	1	Armageddon	2
War	4	Battle	8
Raid	12	Skirmish	18
Patrol	30		

Crew Quality: All Ancients are considered to have a Crew Quality score of 7.

Stealth Penetration: The weak technologies of the younger races are no barrier to the might of the Ancients. They ignore the Stealth of any of the younger races.

Redundant Systems: With ships constructed using neither purely mechanical nor purely bio-mechanical technologies, the Ancients use vessels of an almost otherworldly construction, possessing many strange abilities. They are extremely hard to damage and can repair themselves very quickly. Ancients take damage as normal but critical hits are automatically repaired in the End Phase of the turn after which they are inflicted. Critical hits to Vital Systems are also repaired at this time.

Crew: The Ancients cannot be boarded, nor can they initiate boarding actions. They are completely immune to any critical hits that affect crew, and have no Crew or Troops score.

The Ancients (Ancient War) Fleet List

Kirshiac	War	Kingship	Ancient
Conqueror	Ancient	Mastership	Ancient
Lordship *	Ancient	Overlord	Ancient
Mastership (Scout)
